

Shadow Tracker™

**Do you know where your employees are?
Do you know what they did today?**

Unique vehicle tracking system drives operating costs down - and production up.

Did they arrive at the customer site on time? What time did your employees really go home? How fast was your employee driving through the neighborhood? As a manager or owner, keeping a watchful eye on your vehicles - and employees - helps ensure a job well done, and at a profit.

In today's economy controlling fuel, payroll, and fleet maintenance cost is critical to the success of your company. Reducing these costs is a great way to increase profitability and to stay competitive. Abbott's GPS vehicle tracking system can manage your fleet and help you get the information your business needs to reduce these costs.

The Shadow Tracker™ j2 allows you to monitor your vehicle's every movement. Now you will know how fast your fleet vehicle is going and where they have been. With the Shadow Tracker™ j2, accountability is just a click away.

Advanced technology, advanced tracking capabilities

Shadow Tracker™ j2 utilizes proprietary technology and the Global Positioning System (GPS) developed by the United States Department of Defense to help you :

- Document actual routes driven
- Monitor speeds
- Reduce fuel use
- Stop unauthorized use of vehicles
- Eliminate "moonlighting"
- Validate time sheets
- Reduce overtime
- Reduce liability and increase profitability

The Shadow Tracker™ j2 Advantage

The Shadow Tracker™ j2 system is a cost effective way to reduce overhead and to increase efficiency - and your bottom line.

- Installs easily in any vehicle
- Costs hundreds less than other GPS systems
- Highly detailed mapping features
- Detailed productivity reports
- Free technical support
- 1 year limited warranty
- **No monthly fees - a one-time low cost investment!**
